

TASK 12 ASSIGNMENT – H224-12

1. Down the file *Instructor-Ex11-5.rvt* from the Dropbox and save as *Ex12-1.rvt*. Use this file as the starting point for this lesson.
2. Complete exercises 12-1 through 12-2. Save *Ex12-2.rvt* as *userid-H224-12.rvt*.
3. Complete exercise 12-3 on your own. You will not be graded on this exercise as we will not print in this class.

NOTE THE FOLLOWING CHANGES TO EXERCISE 12-1:

- a. In step 3, select *AIMS E1 30 x 42 Horizontal: E1 30x42 Horizontal* titleblock.
- b. In step 5, adjust the text to look similar to the following:

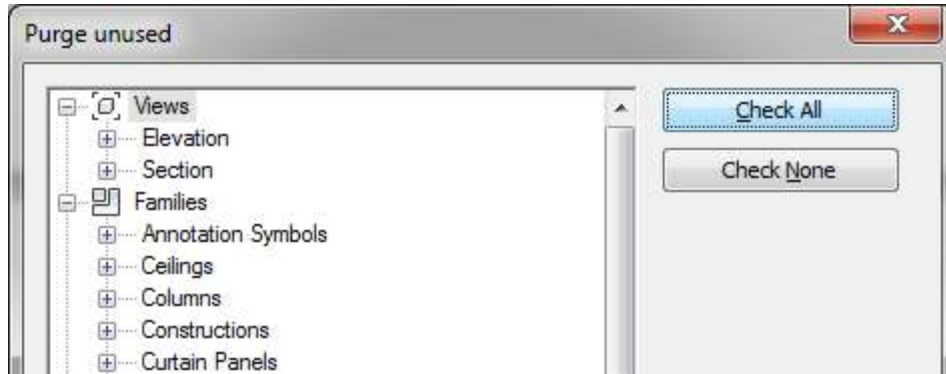

- c. In step 27 (page 12-8) A400 Wall Sections should have a view scale of $1/2'' = 1'$.
4. As you are working through the exercises, please email me with specific questions if they come up.

NOTE: Please note that the author directs you to '**Saveas**' each exercise as a separate project. You may do this if you'd like, but for submission purposes turn in **ONLY** your EX12-2.rvt file which show all the work completed for Lesson 12. As usual, please use your userid to name the file (i.e. *userid-H224-12.rvt*).

5. Before you submit your Project file, you must **Purge** all unused families & types from your project. **Manage>Settings>Purge Unused**. Click on **Check All** and then **OK**. You normally would not do this, however due to the size of the files and the limitations of **AimsOnLine**, you must keep the files as small as possible. I recommend that you keep your own unpurged file as a reference.

TASK 12 ASSIGNMENT – H224-12

6. Submit your file to the Dropbox for grading.
7. Then go to the 'Quizzes' tab and complete the Lesson 12 Review Quiz online (10pts possible).

12-1 = 30pts

12-2 = 10pts

40 total points possible.
